Improve municipal facilities while saving energy costs

As municipalities reduce their GHG emissions, conducting retrofits and upgrades to reduce GHG emissions in existing buildings is a critical step. Additionally, municipalities that go further and convert existing buildings or new municipal facilities to use heat pumps and/or to be zero emissions inspires the municipality to decarbonize. This action will give municipalities credit for converting and retrofitting a municipal building, installing energy efficient technology, and implementing energy efficiency operations strategies.

Earn recognition and unlock access to grant funding

NYSERDA's Clean Energy Communities Program recognizes and rewards local governments for their clean energy leadership.

Each High Impact Action is worth points collected upon completion of the action. The points you earn count toward unlocking access to Designation Grant funding. Earning more points allows you to reach higher designation levels and to earn larger amounts of grant funding.

You can earn up to 4,100 points toward a Designation Grant by completing this action.

Visit nyserda.ny.gov/cec to review the full list of High Impact Actions and Available Grants.

Ready to get started?

Dedicated and knowledgeable Clean Energy Communities Coordinators are available to assist municipal staff as they implement this action. Your regional Clean Energy Community Coordinator will review your goals and help you determine which actions are best for your community and how to access grant funding.

Visit nyserda.ny.gov/cec or email cec@nyserda.ny.gov to learn more or get started.
