Reduce GHG emissions and noise with electric landscaping upgrades

Landscaping equipment for municipal operations is a significant contributor to operational GHG emissions, noise, and other pollutants. Municipalities can earn points for purchasing electric landscaping equipment (e.g., electric lawn mowers, leaf blowers, etc.) that save at least five tons of carbon dioxide equivalent annually.

Municipalities must submit the Electric Landscaping Certification Form to receive credit for this action.

Earn recognition and unlock access to grant funding

NYSERDA's Clean Energy Communities Program recognizes and rewards local governments for their clean energy leadership.

Each High Impact Action is worth points collected upon completion of the action. The points you earn count toward unlocking access to Designation Grant funding. Earning more points allows you to reach higher designation levels and to earn larger amounts of grant funding.

You can earn 200 points toward a Designation Grant by completing this action.

Visit nyserda.ny.gov/cec to review the full list of High Impact Actions and Available Grants.

Ready to get started?

Dedicated and knowledgeable Clean Energy Communities Coordinators are available to assist municipal staff as they implement this action. Your regional Clean Energy Community Coordinator will review your goals and help you determine which actions are best for your community and how to access grant funding.

Visit nyserda.ny.gov/cec or email cec@nyserda.ny.gov to learn more or get started.
