We are writing this letter of disapproval of the 300-page long Bill the Climate Action Council group has put up for vote in our state. Enacting this would bring a unbearable strain to the hard-working citizens and the elderly barely making ends meet.

It's obvious there wasn't much thought put into this before trying to ram it down their citizen's throat. This NEW GREEN DEAL the left is using to bring our state into the dark ages will never work.

Please pass this along to the Climate Action Council.

Thank You

Alan and Thomasine Wing
